

2024 Remote Patient Monitoring Forum

Essential Strategies to Achieve Success in the New Era of Remote Patient Monitoring: Facilitating Valuable Patient Engagement and Access to Care, Leveraging Data, and Reducing Healthcare Costs While Improving Patient Outcomes

July 11 – 12, 2024 • Swissotel Chicago • Chicago, IL

Overview

The healthcare industry is undergoing tremendous and rapid transformation in order to substantially reduce healthcare spending while simultaneously improving patient outcomes, population health, and value based health. Technology based models are transitioning at a furious pace to enhance patient care and access. The nation's healthcare environment has recognized that enhanced and efficient hospital-wide patient flow is essential in achieving value-based health and delivering safe, high-quality patient centric healthcare. Hospitals and health systems are examining how to provide the right care, in the right place, and at the right time while reducing costs and eliminating waste. They are developing/implementing innovative and collaborative based interventions, and employing technology and real-time data information. Remote Patient Monitoring is at the forefront of patient care reform and it is ushering in a new era of healthcare.

We have created a high-level forum featuring leading Health Systems, Hospitals and other Providers who will share their insights and expertise on how to prepare and be successful with innovative Remote Patient Monitoring models. This impressive program will include distinguished members from highly regarded hospitals and health systems featuring best innovative practices to utilize in today's rapidly evolving world of healthcare.

This is the only conference on Remote Patient Monitoring that will equip you and your organization with current innovative strategies and tools to succeed in the new era of healthcare. By attending the 2024 Remote Patient Monitoring Forum in *Chicago, IL* on July 11 – 12, 2024, you will learn what highly regarded hospitals, health systems and health plans are doing to be prepared for the challenges that lie ahead in 2024 and beyond.
