

2022 Reducing Hospital Readmissions Summit

Reduce Hospital Readmissions through Enhanced Discharge Planning, Improved Payer-Provider Collaboration, and an Efficient Care Transitions Program – Develop an Effective Population Management Model and Enhance the Patient Experience!

June 9 – 10, 2022 • InterContinental New Orleans • New Orleans, LA

Overview

Preventable hospital readmissions are costing the healthcare system approximately \$25 billion on an annual basis, and it is estimated that one out of every five Medicare patients is readmitted to the hospital within 30 days of discharge. In an attempt to control excessive spending on avoidable healthcare costs as well as to improve quality care, performance and patient health, CMS has instituted new regulations and higher penalties. Hospitals and health systems are especially affected by the new mandates, and are exposed to increasing financial risk.

We have created a high-level forum featuring providers and payers who will share their insights and expertise on how to lower readmission rates through recognized and proven discharge programs and follow-up plans, simultaneously reducing costs and improving quality of care. This impressive program will include distinguished members from highly regarded institutions comprised of hospitals, health systems, health plans and industry experts; featuring best practices to utilize in today's rapidly evolving world.

This is the only conference on Reducing Hospital Readmissions that will equip you with innovative strategies and tools to be better prepared for 2022 and beyond. By attending the *2022 Reducing Hospital Readmissions Summit*, you will learn what others in clinical integration, utilization management, patient care and reimbursement are doing to be prepared for the challenges that lie ahead in 2022.

Intended Audience

From Hospitals, Health Systems, Health Plans, Employer Plans, TPAs & Managed Care Organizations:

Chief Executive Officers, Chief Medical Officers, Chief Clinical Officers, Chief Operating Officers, Chief Financial Officers.

- Case Management
- Care Management
- Denial Management
- Compliance
- Admissions
- Patient Flow
- Emergency Department
- Managed Care
- Coding
- Risk
- Finance
- Clinical Documentation

• Nursing

• Physician Assistants

Also, of interest to Healthcare Consultants, Solution Providers, Vendors, Accountable Care Organizations (ACOs), Government Agencies, Pharmacy Benefit Managers, Disease Management Organizations, Third Party Administrators, Pharmaceutical & Medical Device Companies, IT & Business Process Outsourcing Companies, Enrollment Brokers and More!

Agenda

Day One – Thursday, June 9, 2022

7:15 *Conference Registration & Morning Breakfast*

8:15 *Chairperson's Opening Remarks*

Rong Yi, PhD

Principal

Milliman

8:30 Optimizing Transitions of Care through Effective Collaboration and Partnerships

Molly Shane, RN, MS

Director, Care Management & Patient Transitions

UCSF Health

Stephanie Rogers, MD, MS, MPH

Associate Chief, Geriatrics Clinical Programs

Co-Medical Director, Adult Transitions

UCSF Health

Misti Meador, RN, BSN, MBA, CCM

Assistant Director, Post-Acute Care

UCSF Health

9:15 Innovative Strategies for Reducing 30 Day Hospital Readmission Rates

Mark Green, MBA, PMP, LSSBB

Vice President, Care Management

Ochsner Health Network

10:00 *Networking Break & Refreshments*

10:30 Strategies within the Emergency Department to Impact Hospital Readmissions and Patient Flow

Patrice Callagy, RN, MPA, MSN, CEN

Executive Director, Emergency Services

Stanford Health Care

Shashank Ravi, MD, MBA
Assistant Medical Director, Emergency Medicine
Stanford Health Care

11:15 The Power of Remote Patient Monitoring Strategies Post Discharge

Tanay Tandon
CEO & Co-Founder
Athelas

12:00 Luncheon for All Attendees & Speakers

1:15 Implementing Strategies to Successfully Preventing Readmissions in a Healthcare System

2:00 Panel Discussion: Essential Strategies to Reduce Preventable Hospital Readmission Rates Across the Continuum of Care

3:00 Networking Break & Refreshments

3:30 Creating an Effective Patient Centered Discharge Plan to Reduce Readmissions and Enhance the Patient Experience

4:15 Approaches to Goal Setting for Reducing Hospital Readmissions: A Data and Financial Perspective on Readmissions

John Rogers, ASA, MAAA, MS
Consultant
Milliman
